

# NetApp - Performance Analysis on Clustered Data ONTAP (NA-PERFCDOT)

**Dauer:** 3 Tage

[Zur Online-Buchung](#)

**Artikelnummer:** AP4

**Preis zzgl. MwSt.:** 2.700,00 €

**Kurskategorien:** [NetApp](#)

## Verfügbare Kursorte:

Live-Online-Training, Berlin, Hamburg, München

## Verfügbare Kurstermine:

07.09. - 09.09.2026, 08.06. - 10.06.2026, 13.04. - 15.04.2026, 14.12. - 16.12.2026, 26.10. - 28.10.2026, 27.07. - 29.07.2026

## Kursbeschreibung

Kurssprache: Deutsch, Schulungsunterlagen: Englisch, digitale Form. Zielgruppe: Professionals who manage NetApp storage systems and would like a deeper understanding of Clustered Data ONTAP system performance. Kursziele: For those students who are looking for more in-depth knowledge on managing performance on Clustered Data ONTAP after completing DCADM should consider PERFCDOT. This course will teach students to use available tools such as system commands and NetApp OnCommand to collect and monitor performance data. Students will learn to use this data to identify and implement system changes that improve the efficiency of the system. Hands-on labs, case-studies, and technical discussions will take place throughout this 2-day course. Dieses Seminar führen wir in Kooperation mit Fast Lane GmbH durch.
